A DEDICATED PERSON . . .

This yearbook is dedicated to a true sportsman and a friend. Born on April 14, 1937, Mr. Richard Max spent his early years in the city of San Francisco. He attended Cal Poly where he achieved All-Conference and Little All-American honors as center for the football team.

For the past nine years, Mr. Max has carried and maintained this mark of excellence, as noted in his teaching career, and his outstanding wisdom and knowledge as line coach for the Varsity football team. His career in sports is an achievement any man would be proud of.

Behind the scenes, Mr. Max is continuously hard at work, unselfishly devoting much of his time to his students and his school. His list of achievements is unending. For your outstanding dedication to the school, we, the Talon staff, dedicate this yearbook to you, Mr. Richard Max.

Varsity Football

This year's Falcons were faced with a rebuilding problem after last year's championship team. The coaches and players accepted this as a challenge. The desire to win kept them going strong throughout the season. They ended the season with a 4 win, 4 loss record, once again we retain the BELL.

The Falcons were led by head coach John Germaine. And their manager, always lending a helping hand, Henry Ibarra.

PRINCIPAL

PRINCIPAL'S MESSAGE

I would like to address my comments to this year's student body in a somewhat unconventional manner. Traditionally, the principal's message concerns itself with expressions such as: This yearbook will reflect the happenings of the past school year; Congratulations to the yearbook staff; Congratulations to the senior class, etc. These comments are certainly appropriate. However, in keeping with this year's yearbook theme, I would like to mention a few words about togetherness and all that is entailed in the process of living with our fellowman. Because man is imperfect, it is unrealistic to expect that he can create perfection. However, this does not imply that we cannot strive for what can be accepted as a realistic goal. This is certainly true where attitudes, values, and emotions play a role in the relationships people have with each other. Because we are a community within ourselves at Andrew Hill High these factors have been as much a part of our life here at school as they are in society in general. Your teaching staff and others who assume the responsibility of preparing you for formal education beyond the high school years or of giving you the basic educational foundation for life's work have made every effort to teach you the rewards that are found in treating your fellowman with respect and with dignity. We hope that you have learned to be appreciative of the unique value of each person as individuals and to respect the varied abilities that people as individuals may have. We have tried to show through action, example, and teaching, the errors of bigotry, prejudice and attitudes of superiority that are responsible for so much of the misunderstandings people have about one another. The fact that we are required by the very nature of our existence to live in close proximity to one another suggests that we learn to like togetherness in harmony. It is our hope that each of you has taken advantage of our efforts in this vein and will therefore be able to live in peace with your fellowman. Thank You.
